### GCS Payroll Service

#### Have you found your own role and seeking an Agency to payroll through?

Our Payroll Practice offers independent contractors a seamless and professionally managed service. We remove the administrative burden and ensure all legislative requirements are met.

We make certain that all parties enjoy a fair and mutually beneficial commercial agreement from day one.

### What sets us apart?

#### Our values are the reference point for how we work ...

- *“In contrast to some of our competitors, our primary aim is to ensure our contractor and client requirements are met first, not our own.”*
- *“We are committed to establishing long term, open business relationships.”*
- *“We ensure all key financial elements of our commercial relationship are formally disclosed.” (Pioneered by GCS in 1986 as the “Open Book” policy).*

We’ve been operating this way since inception; it’s who we are and an embodiment of our values.

#### Result:

*“GCS is a great agency to work with. They’re friendly, prompt and always on the ball. With GCS it’s straightforward.”*

- Zarko Peric  
(GCS Contractor at nab, 2009)
